ENEE 457—9/26/22

1. Display the names of all customers located in London.

   SELECT CustomerName FROM Customers WHERE City = "London";

2. Insert Grandma's Cookie Jar located in College Park into the Customers Database.

   INSERT INTO Customers (CustomerName, City)

   VALUES ("Grandma's Cookie Jar", "College Park");

3. Display entire Customers table, ordered by CustomerName.

   SELECT * FROM Customers ORDER BY CustomerName;

4. Modify the Grandma's Cookie Jar record so that Country is set to "USA".

   UPDATE Customers
   SET Country = "USA"
   WHERE CustomerName = "Grandma's Cookie Jar";

5. Delete Grandma's Cookie Jar from the Customers table.

   DELETE FROM Customers WHERE CustomerName = "Grandma's Cookie Jar";
