

ENEE 408D  
Spring 2003  
Homework 11 Due 5/13, 2003

Read sections 25.1. (pp. 617-630). Make sure you understand the examples in the section extremely well. You will probably see similar problems on the final.

Do the following problems from (BLB).

1. 25.1
2. 25.3
3. 25.5. Also calculate the common mode rejection ratio for this circuit.
