email address: newcomb@eng.umd.edu; URL: <http://www.ee.umd.edu/newcomb/mslab.html>

assisting: Ms. Yu Jiang; email: jiangyu@glue.umd.edu

6. Course Description: Paper presentations at meetings held once a week at the scheduled time.
7. Course Operation:

Each student will present a talk on a paper in the literature, possibly on a central theme if the class so decides. For 2 credits two talks on related papers should be given and a short written summary of them submitted. For 3 credits two talks and a term paper on the topic of the papers should be written following IEEE guidelines.

Each student will also be a commentator (for the number of talks given) on other papers.

For those interested, VLSI layout is possible with fabrication via MOSIS (actual fabrication will require a commitment to make measurements on the chip, for which the Microelectronics Design Laboratory annex, Rm AVW 1364, can be made available).
